Financial Counseling for Providers & Clients

GamFin makes it easy for Problem Gambling treatment providers to meet with expert financial counselors online to discuss financial aspects of client cases. Treatment providers can also refer their clients.

Consult with financial counselors one-on-one for personalized guidance on how to handle financial issues; from budgeting, debt, and restitution plans, to best practices for helping clients understand their relationship with money.

Get answers to financial questions for your clients; answers that:

- are not easy to find elsewhere,
- do not come with a financial product sales pitch,
- can be integrated into treatment and recovery programs to improve client outcomes
